

NOV 30 2006

Serial No.: 09/496,137

Attorney's Docket No.: 06618/414001/C1T2945

Amendments to the Claims:

This listing of claims replaces all prior versions and listings of claims in the application:

Listing of Claims:

1. (Cancelled)
2. (Previously presented) A method of producing a shape, comprising:
 - using a virtual reality environment in which positions of a user's hand are tracked;
 - forming a three-dimensional modeled surface by adding shapes defined by hand movements at each of a plurality of intervals; and
 - wherein an inside surface of the hand is used to form the modeled surface, by tracking movement of a tangent to the hand, to define a tangent plane of a surface being created.
3. (Original) A method as in claim 2 wherein said using comprises tracking hand movement is tracked via a tracker and glove.

Serial No.: 09/496,137

Attorney's Docket No.: 06618/414001/CIT2945

4. (Currently amended) A method ~~as in claim 1~~ further of producing a shape, comprising:

using a virtual reality environment in which positions of a user's hand are tracked;

forming a three-dimensional modeled surface by adding shapes defined by hand movements at each of a plurality of intervals, wherein an added shape comprises a surface region formed from sampled positions of a hand movement in the virtual reality environment during at least one of said intervals; and

using an incremental technique to take an existing mesh of samples and changing it to add a new sample.

5. (Previously presented) A method of producing a shape, comprising:

using a virtual reality environment in which positions of a user's hand are tracked;

forming a three-dimensional modeled surface by adding shapes defined by hand movements at each of a plurality of intervals;

using an incremental technique to take an existing mesh of samples and changing it to add a new sample; and

wherein said technique comprises finding a neighborhood of samples, identifying a surface region, removing identified

Serial No.: 09/496,137

Attorney's Docket No.: 06618/414001/CIT2945

parts, and creating new parts to replace the identified parts, where the new parts take a new sample into account.

6. (Previously presented) A method as in claim 5 wherein said technique utilizes a projective plane to determine how the new parts should be formed.

7. (Previously presented) A method of producing a shape, comprising:

using a virtual reality environment in which positions of a user's hand are tracked;

forming a three-dimensional modeled surface by adding shapes defined by hand movements at each of a plurality of intervals;

wherein the surface is selected as a normal to the surface of the hand.

8. (Currently amended) A method as in claim [[1]] 4 further comprising defining a first hand position which defines a starting position and a second hand position which defines a stopping of drawing.

Serial No.: 09/496,137

Attorney's Docket No.: 06618/414001/CIT2945

9. (Currently amended) A method as in claim ~~[[1]]~~ 4 further comprising defining a hand position which forms an eraser tool.

10. (Currently amended) A method ~~as in claim 1~~ further of producing a shape, comprising:

using a virtual reality environment in which positions of a user's hand are tracked;

forming a three-dimensional modeled surface by adding shapes defined by hand movements at each of a plurality of intervals, wherein an added shape comprises a surface region formed from sampled positions of a hand movement in the virtual reality environment during at least one of said intervals; and

modifying the drawing using one of a plurality of props.

11. (Original) A method as in claim 10 wherein said props are tongs which can be squeezed and moved to rotate the shape.

12. (Original) A method as in claim 10 wherein said prop is a spherical ball.

13. (Original) A method as in claim 10 wherein said prop is a sponge which alters a look of the shape.

Serial No.: 09/496,137

Attorney's Docket No.: 06618/414001/CIT2945

14. (Original) A method as in claim 13 wherein said altering is by smoothing.

15. (Cancelled)

16. (Currently amended) A method as in claim ~~[[15]]~~ 25, wherein said forming comprises using the hand to create 3d-strokes of shape.

17. (Currently amended) A method as in claim ~~[[15]]~~ 25, wherein said using comprises using the bend of the hand to define the curvature of 3d-strokes.

18. (Currently amended) A method as in claim 25, of ~~producing a shape, comprising:~~
~~tracking a position of a user's hand;~~
~~forming a three-dimensional modeled surface based on said~~
~~position of said user's hand at different times;~~
~~wherein said forming comprises using the hand to create 3d-~~
~~strokes of shape;~~
further comprising ~~displaying a trace of the path of the~~
~~hand;~~

Serial No.: 09/496,137

Attorney's Docket No.:06618/414001/CIT2945

sensing at least 7 of the hand's degrees of freedom for the purposes of shape creation, said degrees of freedom including the hand's position and orientation in space, along with degrees of freedom that are affected by the hand's posture.

19. (Currently amended) A method as in claim 25, ~~ef~~
~~producing a shape, comprising:~~
~~tracking a position of a user's hand;~~
~~forming a three-dimensional modeled surface based on said~~
~~position of said user's hand at different times;~~

wherein said forming comprises using the hand to create 3d-strokes of shape, each 3d-stroke of shape comprising a plurality of points created in 3d-space by motion of the hand, the plurality of points defining the 3d-stroke of shape; and

further comprising merging samples from one hand position to an existing shape.

20. (Previously presented) A method of producing a shape, comprising:

tracking a position of a user's hand;
forming a three-dimensional modeled surface based on said position of said user's hand at different times;

Serial No.: 09/496,137

Attorney's Docket No.: 06618/414001/CIT2945

wherein said forming comprises using the hand to create 3d-strokes of shape; and

wherein said samples are added by deprojecting a shape, removing parts, adding new parts, and reprojecting said shape.

21. (Currently amended) A method as in claim [[15]] 25 further comprising using hand postures to switch between different modes of operation.

22. (Cancelled)

23. (Currently amended) A method as in claim [[15]] 25, wherein a second hand posture comprises a stop track posture.

24. (Currently amended) A method as in claim [[15]] 25, further comprising displaying different tools at the hand's position based on different postures.

25. (Currently amended) A method ~~as in claim 15~~ further of producing a shape, comprising:
tracking a position of a user's hand; and
forming a three-dimensional modeled surface by finding hand
positions at different times, storing those positions, and

Serial No.: 09/496,137

Attorney's Docket No.:06618/414001/CIT2945

forming the surface using said positions to define points on the
actual surface that is formed;

wherein a first hand posture comprises a start to track
posture; and,

using the finger to draw a narrower stroke.

26-32. (Cancelled)
